

## How to Make a Kid's Compass

### Materials Required:

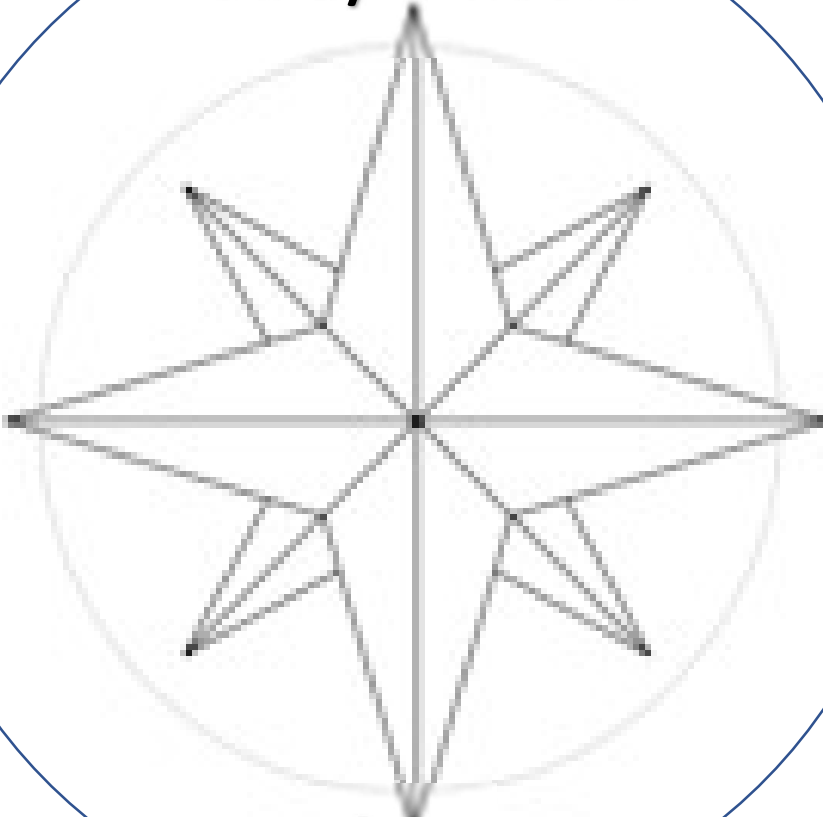

- **1 Paper fastener or brad**  
*(available at most craft stores)*
- **Coloured paper or cardstock** Scissors
- **Glue or tape**
- **Crayons or markers**
- **Ribbon**
- **Compass Rose Template** *(attached)*
- **Rim of a Styrofoam bowl** *(optional)*
- **Hot glue gun** *(optional, to attach rim of the Styrofoam bowl to the outside of your compass)*

### Instructions:

1. **Print the template from the following page** onto coloured paper or cardstock.
2. Regardless of what you use for the Compass Rose, **the Dial should be printed on Cardstock, if possible.**
3. **Decorate as desired** using crayons or markers.
4. If you choose to print the Compass Rose on coloured paper, **if possible, glue it onto a separate piece of cardstock** for extra support.
5. **Cut out the printed template** as close to the circular outline as possible.
6. **Cut out the Dial.**
7. With the help of an adult, **carefully poke the paper fastener in the middle of the Dial**, being careful not to break through the cut edge.
8. With the Dial still attached, **poke the fastener in the middle of the Compass Rose**, being careful to line up the single arrowhead so it's well positioned to point to God/Others.
9. (Optional) **Carefully cut the rim off of a Styrofoam bowl** so that it remains as a continuous circle. **Ask an adult to cover the inside edge with hot glue and attach the completed Compass.**
10. **Cut a loop of ribbon** and use glue/tape to attach it to the top of the compass.

God/Others
